Degreed

Additional Questions

1. How did you hear about UTeach?

2. Please tell us why you are interested in pursuing a teaching career.

*****A criminal background check will be required to complete your field hours and clinical teaching to receive a certificate. A full background check with fingerprinting will be required before clinical teaching. The Texas Education Agency requires a social security number to complete the required fingerprinting process. If you cannot successfully complete a criminal background check, you will not be able to certify or to gain a job as a teacher in the state of Texas. You have the right to review the results of this check. Conviction of an offense can make you ineligible for the issuance of a certificate on completion of the certification program. For more detailed information, see Texas Education Code (TEC), §227.1***

*****I am aware that transportation to field sites is the responsibility of the student. Step 1 and Step 2 courses require five field visits. Classroom Interactions and Project-Based Instruction require field visits. Apprentice Teaching is a full-time teaching semester.***
